To Whom It May Concern

**RE: 2018 Real Film Festival**

This letter whole-heartedly endorses the tireless efforts of Annette and her team running yet another creativity-packed program for this year's Real Film Festival.

I've been fortunate to have enjoyed RFF as both an audience member as well as a workshop presenter, and have thoroughly enjoyed both equally.

RFF brings together a community to not only appreciate documentary based stories, but it in itself creates a whole new community of minds and mentors that stay in touch year after year.

The festival deserves all the support and assistance it can muster because I know how incredibly hard the team work to bring it together each year. It's become an iconic fixture in my event calendar every year and I can't wait to be involved again in 2018.

Best,

A handwritten signature in black ink that reads "Jason van Genderen". The signature is fluid and cursive, with a large initial 'J' and a long, sweeping underline.
